Cleanserv PB51/2000
Battery-powered polishing machine

For brilliant results

Cleanserv PB51/2000

High polishing performance, excellent manoeuvrability, dust extraction and easy operation are only some of the many advantages the Cleanserv PB51/2000 has to offer.

1) Flexible employment

Cleaning up to 1,600 m² per hour, brilliant results on laminated floors are guaranteed – e.g. in schools, department stores, offices and hospitals.

2) Direct access

All operating elements incl. the pressure adjustment are within easy reach; the variable handle bar guarantees fatigue-free working.

3) Clean extract air

Polishing dust is collected in the disposable dust bag and the extract air is filtered.

Technical data Cleanserv		PB51/2000
Working width	cm	51
Max. working speed	km/h	3.2
Nominal voltage	V	36
Revolutions per minute		2,000
Working tool		Pad
Pad pressure	kg	8-15
Power input, pad motor	W	1,850
Length, ready for use	cm	154
Width (incl. working tool)	cm	56
Height, ready for use	cm	109
Weight with/without batteries	kg	110/230

Form, colour and design are subject to change in favour of further technical development. Images may contain optional extras.

4) Easy pad-changing

Easy and tool-free pad-changing system, various pads are available for any number of different requirements.
